#### ● IC Block Diagrams

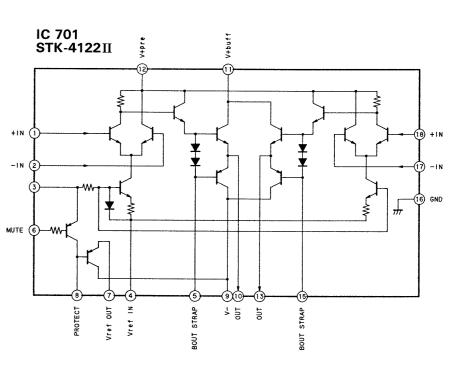

#### 5-5. SCHEMATIC DIAGRAM—TUNER SECTION—

#### • All capacitors are in $\mu F$ unless otherwise noted. pF: $\mu \mu F$ 50WV or less are not indicated except for electrolytics and tantalums,

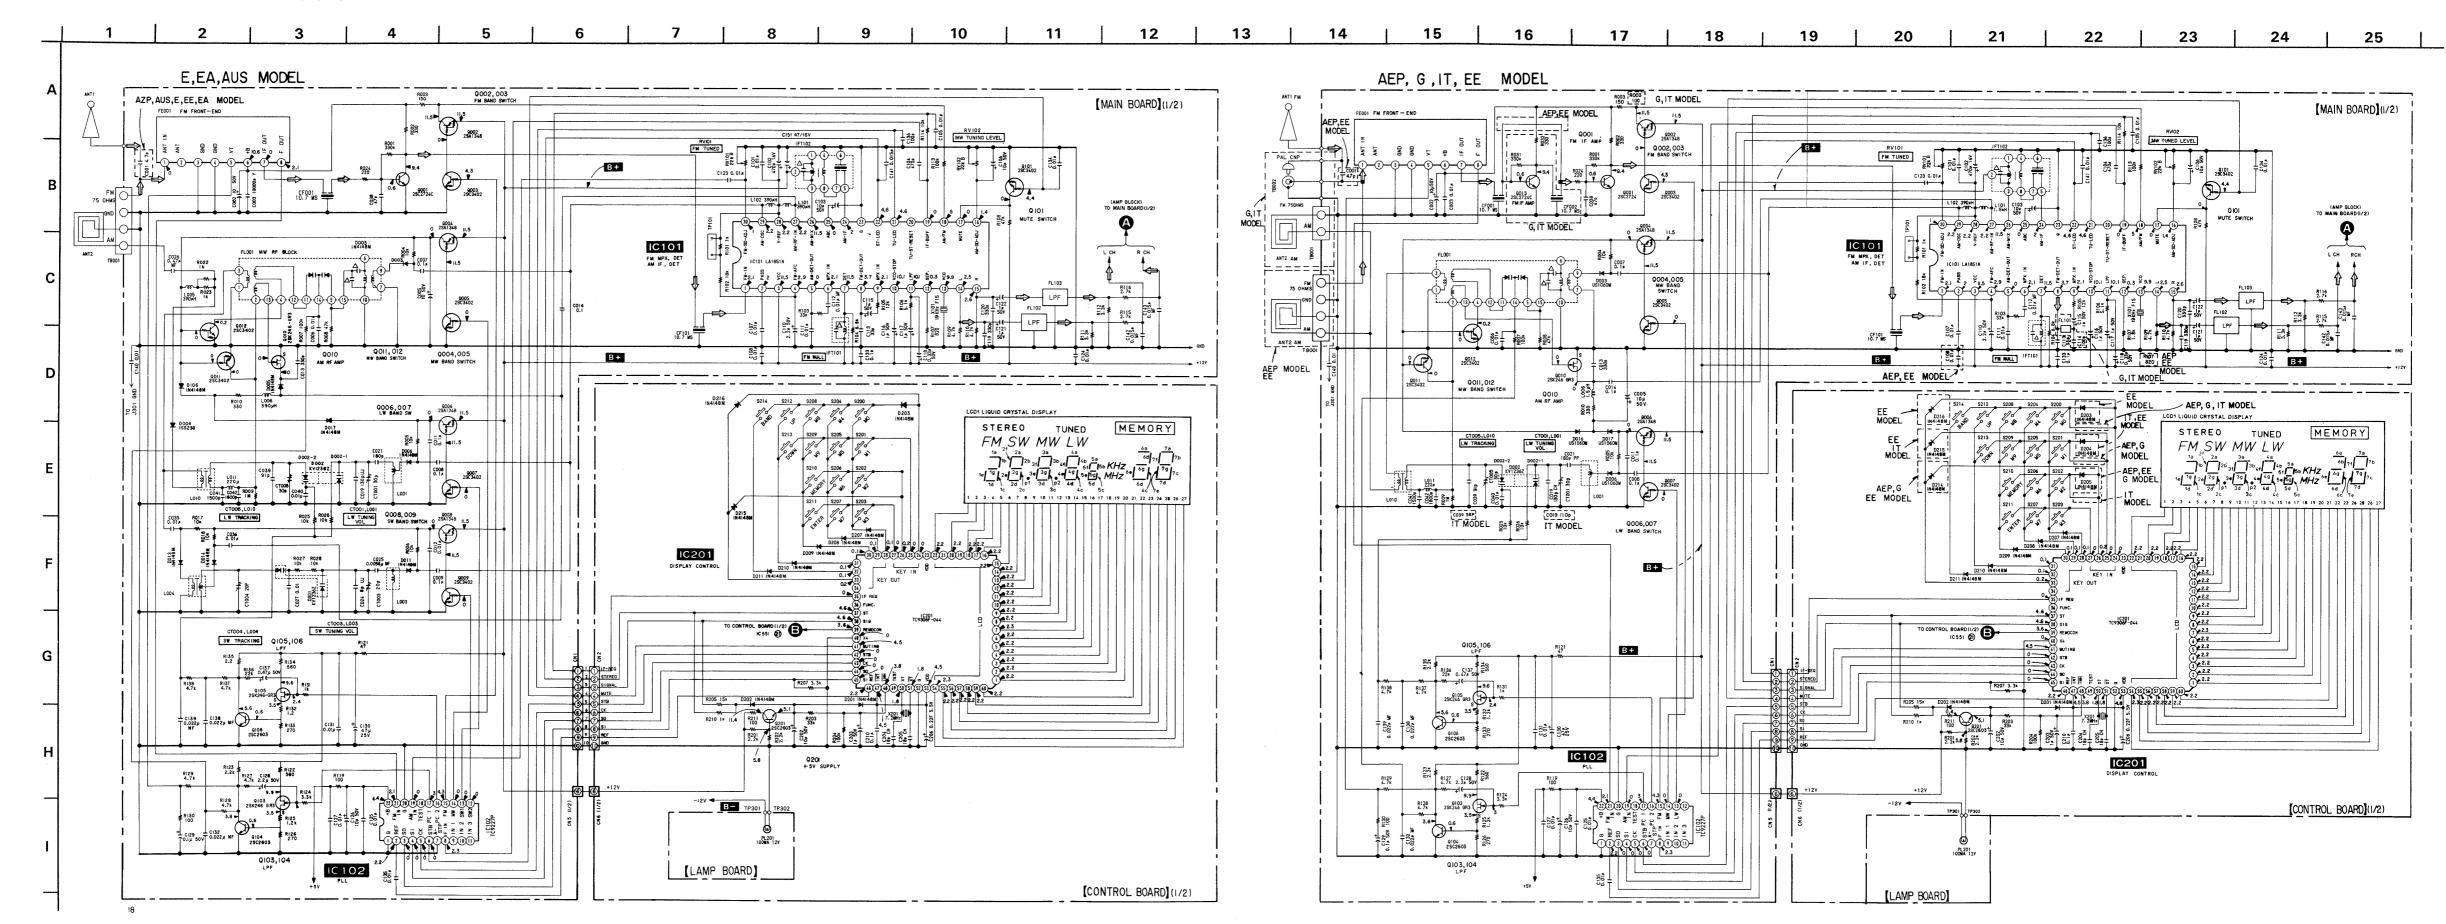

- $\bullet$  All resistors are in  $\Omega$  and  $1/\!\!/_4\,W$  or less unless otherwise specified.
- '% : indicates tolerance. △ : internal component.
- fusible resistor.

Note: The components identified by mark  $\bigwedge$  or dotted line with mark  $\bigwedge$  are critical for safety. Replace only with part number specified.

- B- : B- Line
- adjustment for repair.
- Voltage and waveforms are dc with respect to ground under no-signal (detuned) conditions. no mark : FM
- Voltages are taken with a VOM (Input Impedance  $10M\Omega$ ). Voltage variations may be noted due to normal produc tion tolerances.
- Signal path.

Remark

### **SECTION 6 EXPLODED VIEWS**

#### NOTE:

- The mechanical parts with no reference number in the exploded views are not
- The construction parts of an assembled part are indicated with a collation number in the remark column.
- Items marked "\*" are not stocked
- since they are seldom required for routine service. Some delay should be anticipated when ordering these items.
- Due to standardization, parts with part number suffix -XX and -X may be different from the parts specified in the components used on the set.
- Color Indication of Appearance Parts Example:

• Screw(#mark) list is given in the last of this parts list.

The components identified by mark ⚠ or dotted line with mark ⚠ are critical for safety.

Replace only with part number specified.

#### NOTE:

- The mechanical parts with no reference number in the exploded views are not supplied.
- The construction parts of an assembled part are indicated with a collation number in the remark column.
- Items marked "\*" are not stocked since they are seldom required for routine service. Some delay should be antici-pated when ordering these items.
- Due to standardization, parts with part number suffix XX and X may be dif-ferent from the parts specified in the components used on the set.
